Art Unit: 1652

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The declaration does not provide the post office address for inventor Birgit Gornhardt, as required by 37 CFR 1.63(c)(1).

Claims 1-2 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

The reissue specification is objected to because of the following:

The specification is objected to as failing to refer to all related applications in the first line of the specification. It is noted that a reissue of parent application 08/457,797 has been filed as application 09/729,142 but is not specifically referenced.

The reissue specification contains preliminary amendments to the paper copy of the sequence listing and the designation of the assignee on the front page of the patent which do not comply with

Art Unit: 1652

37 CFR 1.173 and 37 CFR 1.121(b) respectively. The paper copy of the sequence listing filed 3/25/03 includes amendments to the sequence listing which do not show the appropriate bracketing and underlining, to show changes being made by reissue and thus the paper copy of the sequence listing fails to comply with 37 CFR 1.173. Applicants should note that the format using underlining and bracketing should be used in the paper copy of the sequence listing while the computer readable form should not. The amendment to the assignee's name does not comply with 37 CFR 1.121(b) because the brackets surrounding the material to be deleted were in blue ink, and because the material to be added was taped under the material to be deleted, rather than inserted after the deleted material on the same line. See MPEP 1453.

Applicants are requested to submit an Information Disclosure Statement meeting the requirements of 37 CFR 1.97(a)-(d) and 1.98 listing all references cited during the original prosecution of the patent. See MPEP 1455.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rebecca Prouty, Ph.D. whose telephone number is (703) 308-4000. The examiner can normally be reached on Monday-Friday from 8:30 to 4:30.

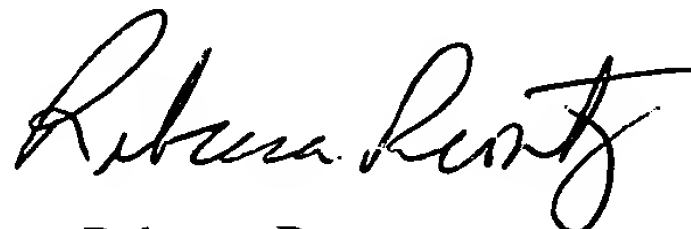

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapu Achutamurthy, can be reached at (703) 308-3804. The fax phone number for this Group is (703) 308-4242.
